CROSSING THE ICE

Crossing the Ice is a highly inspiring and stimulating talk, packed with practical insights on the power of collaboration and teamwork, mindset for success and navigating highly volatile environments.

This keynote takes your team on a rich audio-visual journey through one of the greatest feats in modern exploration. In 100 years of polar exploration, no one had ever walked from the edge of Antarctica to the South Pole and back without any support. Many had tried. None had succeeded—not until Cas and his partner made history by completing the longest unsupported polar journey. They defied the odds, turning an audacious goal into reality through grit and teamwork.

This high-energy and carefully crafted keynote will ensure your team is on the edge of their seats, empowered with takeaways and lessons they can apply to their professional and personal lives.
